

WOMAN STABBED BY ANGRY WIFE IN ROCHESTER.

Declared That Her Victim Had Won Away Her Husband and is Glad Her Rival is Dead.

ROCHESTER, N. Y., November 18.—Miss Florence McFarlan, aged 21 years, a music teacher, was stabbed to death in her father's house today by another woman and an hour later Mrs. Lulu Young, wife of Frank Young, at one time city purchasing agent, was arrested as being the supposed murderer.

The woman who committed the deed rang the door bell of the McFarlan home and when Miss McFarlan answered, attacked her with a knife.

Miss McFarlan ran screaming through the hall into the kitchen, closely pursued by her assailant.

In the kitchen she stumbled, half turn-

CORNERSTONE OF A GREAT BUILDING LAID WITH SIMPLE CEREMONY.

Mrs. Phoebe Hearst and W. R. Hearst Take Part in Ceremonies—Address by President Wheeler—Beginning of the Greater University.

BERKELEY, Nov. 18.—Simple yet effective was the ceremony of laying the cornerstone of the Hearst Memorial Mining Building of the University of California this afternoon.

Shortly after three o'clock Mrs. Phoebe Hearst and William R. Hearst, put in place the stone that marks the building erected to the memory of husband and father—the late Senator George Hearst. With the laying of that stone began on this day, that marks the first realization of the growth of the Greater University of California.

It was fitting that the hand of her, to whose generosity is due the erection of the stately building, should put in place the stone that will stand as a monument, not only to her husband's memory, but to her own love for the youth of California. And it was fitting that, with her on this day, that marks the first realization of her magnificent dream for the

university's future, should stand her son, to share with her the joy of giving to the State the greatest mining building the world has ever known.

FIRST BUILDING.

Upon the site where today was gathered the beginning of the State, will grow in stately magnificence the first building to be erected on the Berkeley campus in accordance with the Board plans. Up on the slopes that the throng looked upon will grow the other stately buildings. Up the hillside that showed through the dark trees will travelers go in the future and, looking down, witness the most wonderful buildings that eyes have ever seen.

It was indeed fitting that Mrs. Hearst should have been there. It was fitting that Benjamin Ide Wheeler, under whose firm and master hand has been shaped out of disorganized mass a united and glorious university. It was fitting that

educators, statesmen and friends should have been there at the birth of the Greater University of California.

THE PROCESSION.

At 3:30 o'clock assembled in the court of the Mechanics' building the faculty, the invited guests of honor, and the students of the College of Mining. Down the broad stone steps along the winding drive back of the excavation for the new building, down the stately slope to the platform moved the stately procession. At its head were President Benjamin Ide Wheeler and Mrs. Phoebe Hearst, followed by William R. Hearst and John Galen Howard, supervising architect. Next came the regents and guests of honor. And behind them came the members of the faculty in their cap and gowns their scholastic robes imparting a dignity to the procession that was very effective.

Following the faculty, under whose instruction they had taken their degrees, came the officers of the Alumni Association and still the procession stretched away and still they came down the steps.

Benefactors of the University, officers of the State Mining Association and Federal and State officers. Last of all the two hundred and fifty students of the College of Mining, clad in their overalls and jumpers and wearing miners' caps.

THE INVOCATION.

After the guests were seated ex-President Martin C. K. Kellogg, his hair grown white in his faithful service to California, delivered the invocation, while silence reigned except for the speaker's voice and the rustle of the wild in the trees. Then to break

STRANGE CASE OF A WOMAN IN FRESNO

Swallowed a Watch-spring Years Ago and it is Now Found.

Was Extracted From Her Right Limb by an Operation.

FRESNO, Nov. 18.—For three or four months Mrs. Mary A. Weaver of 1161 P street has been confined to her bed, suffering from abscesses which appeared at various places about the limbs.

Physicians were puzzled to know the cause of their recurrence, and operation and operation was performed with only temporary results.

Yesterday, shortly after another operation and before the wound had healed, the nurse passed her hand over the place and was startled to encounter a hard and sharp-edged substance and discovered a flat piece of metal, apparently steel, imbedded in the flesh. A surgeon was sent for and examined a x-rayed J.P. (mm) for and extracted a steel spring no less than ten inches in length, from the right limb between the knee and the ankle. How this object came to be in such an unusual place is a mystery to the patient herself.

Yet the physicians are of the opinion that she must have taken the thing in her mouth when a baby and swallowed it, but the case is peculiar in that the patient is nearly sixty years of age and has carried the watchspring with her for that time without suffering bad effects from it.

APPLE GROWERS MEET

ST. LOUIS, November 18.—Iowa, Illinois, Kansas, Missouri and other States are represented by prominent apple growers at the Congress of American Apple Growers which met here today. Henry Clay Culp, of Fall Creek, Ill., is chairman of the Congress. At the opening session Mayor Wells made an address of welcome, which was responded to by Mr. Culp in behalf of the visiting delegates. Business of interest to the Congress was then transacted, followed by the reading of papers.

WILL GIVE APOSTLE SMOOT A HARD RUN.

Ministers Will Endeavor to Unseat Mormon Senator.

They will Present Charges Against Him in Washington

SALT LAKE, Utah, Nov. 18.—The Ministerial Alliance of Salt Lake is preparing to make a vigorous fight against the election of Apostle Reed Smoot to the United States Senate this winter and falling in this will carry the fight against him to the halls of Congress.

A plan for organized effort on this line, it is said, has already been outlined and will be taken up at the next meeting.

The general idea, it is said, is to make a fight similar to that made against the seating in the House of Representatives of Brigham H. Roberts.

Not only will the matter be brought before the non-Mormons of the State, but the fight is unsuccessful in the Legislature, then an attempt will be made to make Mr. Smoot's election an issue and a petition will be drafted to Congress, asking that Mr. Smoot, as a high official of the Mormon Church, be refused a seat in the Senate.

ENGLISH CONTINUES TO IMPROVE

OAKLAND REJOICES OVER THE GOOD WORK OF THE COUNCIL.

There is a general feeling of rejoicing that the Council, by unanimous vote, granted the San Francisco Terminal Railway and Ferry Company a franchise to enter Oakland. This opens the door for another transcontinental railway to enter this city, and greatly adds to its importance as a railroad center. It is a matter for public congratulation that the Council summarily swept aside the petty objections raised and voted as a unit to promote the prosperity and upbuilding of Oakland.

Mr. Barnett, president of the San Francisco Terminal Railway and Ferry Company, announces that work on the new road will commence without delay. This is welcome news. It is proof that his company is acting in good faith and the city, and indicates the speedy fulfillment of the promise that Oakland will soon be connected with the interior by another great avenue of commerce and transportation.

FAILURE OF THE BOYCOTT IN EAST.

Schneectady Trades Assembly Will Have to Back Down.

Made a Mistake in Attacking the Street Railway Lines

SCHNEECTADY, N. Y., Nov. 18.—The failure of the boycott imposed by the Schneectady Trades Assembly on the Schneectady Railway Company's lines is reason to believe that at the special meeting called for this evening the inhibition will be removed. There is an overwhelming public sentiment against the action of the Trades Assembly in desiring the boycott and this being the case, its success could not be secured.

It is said that the "Masons' Union" at their meeting last evening denounced the boycott as not based on sound union principles, and that other unions will follow their example.

This morning the cars were well patronized. The Albany and Troy cars of the company, which daily carry hundreds of men who are employed in the city, both in the general electric and locomotive works, were filled with workmen.

BRUTAL MURDER OF A SOLDIER IN SAN FRANCISCO.

Two Boys in Blue Are Beaten in Horrible Manner by Enemies on Way to Camp.

SAN FRANCISCO, Nov. 18.—While Corporal Edward Perrin and Privates J. Ray and T. A. Ray, all of the Eighteenth Field Battery at the Presidio, were returning to the post late last night they were set upon by two men armed with clubs, who beat Perrin and Milan so severely that Perrin died at the General Hospital this morning.

Milan is still unconscious and is not expected to live.

The attack took place near the Green

with street entrance to the reservation. Ray ran when he saw the assailants coming and beyond a few minor wounds he escaped further injury.

The injured men were at once removed to the General Hospital, but all attempts on the part of surgeons to bring either of the victims to consciousness were unavailing.

What caused the assault is not known. Ray says both of the assailants were large men, who dealt the victims terrible blows on the head.

Corporal Perrin's skull was fractured and pieces of the bone driven into the flesh.

Several of the dead man's comrades say that the assault was the result of a grudge which was held against him by two enemies.

The post authorities are investigating the case.

ALAMEDA COUNTY MAN VICTIM OF A ROBBER.

Thief Caught in the Act of Robbing His Victim.

San Francisco, November 18.—Police

man George Small made a clever arrest early this morning, when he caught a man who gives the name of Albert Long. In the act of robbing John Jacobson, a deputy Sheriff of Alameda county, and the secretary of one of the well-known gun clubs on that side of the bay, whom the officer says he found helplessly drunk in a lot on Howard Street, between Third and Fourth.

Jacobson, according to the police, had spent a strenuous night and at daybreak sank down in the vacant lot. When Police Small approached the helpless man he saw Long scramble to his feet and run away. He quickly overhauled Long, aroused Jacobson and learned that Long had gone through the drunken man's pockets. All of the stolen goods were found in the thief's possession and identified by Jacobson. Long was before Judge Cabanis this morning on a grand larceny charge and will be tried on Friday next.

BERKELEY AT THE HEAD. A CHRISTIAN GENTLEMAN.

With impressive ceremonies in the presence of an enormous crowd, this afternoon the cornerstone was laid of the College of Mines at the State University. The building, which is typical of California in its architecture and will be the finest structure of its kind in the world, is the gift of Mrs. Phoebe A. Hearst as a memorial to her husband, the late Senator George Hearst, who amassed a vast fortune in mining operations.

In this event we see the promise that Berkeley is soon to take its place as the chief seat of instruction in mining engineering and the science of metallurgy. It has already made wonderful progress in that direction. The graduates of Berkeley are now generally preferred to those of Freiberg, which has long ranked as the first school of its kind in Europe. Columbia and Cornell Universities and the Massachusetts School of Technology give special courses in mining engineering, but the University of California is rapidly taking the lead over them all. This is in accordance with the eternal fitness of things.

California is a great mining State. Its mineral resources are so varied as to admit of unlimited exploitation and development. All classes of gold mining are carried on in this State, quartz, drift and placer mining. Every appliance known to the science of mining is used here, from the primitive rocker and sluice to the hydraulic ram, the mammoth river dredge and the quartz mill. We have huge reduction works which smelt ores from a dozen States and Territories, Mexico and South America. Gold is found in nearly every county in California, but in addition there are vast deposits of copper, quicksilver, iron, silver, lead, gypsum, manganese and mineral oils and paints. Even tin in considerable quantities is found in San Bernardino county, and in the southeastern part of the State are inexhaustible beds of borax.

Every conceivable State and Territory is wonderfully rich in a great variety of minerals, while mining is one of the chief industries of the whole territory of which San Francisco is the commercial and financial center. The countries with which California holds the most intimate trade relations, Mexico, Peru, Chili, British Columbia and Australia, are all prosperous mining regions. They yield the bulk of the precious metals produced in all the world. They all possess infinite resources yet to be developed. It is meet, therefore, that California, which is the original seat of precious metal mining on the Pacific Coast should become the principal seat of instruction in the art of mining. With such a noble and generous patron as Mrs. Hearst, there is no reason why the College of Mines at Berkeley should not be the first institution of its kind on the globe. Indeed, there is abundant ground for believing that it will soon occupy that proud eminence.

When that time comes, the magnificent structure whose cornerstone was laid today will fittingly commemorate the most successful and typical of California's mines and be a monument to the noble philanthropy of a lady whom every Californian feels honored in calling her his countrywoman.

A QUEER PROCEEDING.

It is somewhat surprising that the Chamber of Commerce of San Diego should give a certificate of good character to the Raja Yoga School at Point Loma, the peculiar institution conducted by Mrs. Tingley, who claims to be a priestess or prophetess of theosophy. It requires but a little plain, common sense to convince one that the so-called school and its presiding genius are utter humbugs. The mystery and mumbo-jumbo which characterize the place are the seal of its condemnation. They are more devices to impress the ignorant and susceptible. If Mrs. Tingley is not practicing a fraud, and her teachings are not directly immoral her practices are far from inculcating morality or respect for those personal virtues which constitute the basis of Christian society. That she is extracting money from dupes by humbug arts and blasphemous pretensions is unquestionable. Her school is no place for the young. It is more likely to prove a nursery of mysticism, superstition and vulgar fraud than it is an institution for educating children in the rudiments of useful learning and training them in the virtues of morality and sobriety.

Of course, any one has a right to believe in theosophy or any other cult, but the question here is not one of religious freedom, but whether helpless children shall be consigned to the control and ministrations of a woman like Mrs. Tingley, and their future life colored by the peculiar practices and morals of the Raja Yoga School, the very name of which reeks with suggestions of Oriental trickery and superstition. Mrs. Tingley may lawfully practice on the credulity of weak-minded adults, but society should at least intervene to protect the young and helpless from her contaminating influence.

TRACK AND TRAIN NOTES

A NEW LOCOMOTIVE TENDER COMES TO WEST OAKLAND.

"Up-to-date equipment" is the cry in the West Oakland Yards of the Southern Pacific and in line with this policy the company is preparing to revolutionize the construction of locomotive tenders. One of the very newest things in that line arrived yesterday at the yards from the Sacramento shops, and all day today it was an object of interest to all of the old-timers. The new tender is a combination oil and water carrier. It is nearly as long and over half as high as the big high-speed engine behind which it travels. It is a steel plate semi-cylinder, with all the necessary air-compressing machinery and modern breaking apparatus that is required. The new tender has a capacity of 3,300 gallons of oil and 7,300 gallons of water, enough of each for 300 miles travel at high speed.

So far the new tender is an experiment but practical railroad men and among them Chief Foreman Russell of West Oakland are confident that it will prove a big success. If it does it will work a great economy in California and southern railroading. Oil stations will be needed at intervals of only 20 to 300 miles and water stations the same, which will prove a great advantage, particularly in the southern stretches where water is most often to be had only at the maximum of difficulty and expense.

If the new scheme proves a success all the engines on the coast will be outfitted rapidly as their present tenders wear out.

RIVER STEAMER MODOC. The river steamer Modoc, which was so nearly destroyed by fire in her San Francisco dock, will be ready for business again by the end of the week. The painters are putting on the last finishing touches, and the boat looks as though she were ready for her maiden voyage. The steam barge Acme, another of the railroad's river fleet, will be launched on Wednesday.

FINGER CRUSHED. W. D. McKenzie, a truckman in the West Oakland Yards, has a finger of his left hand smashed so badly yesterday that amputation will probably be necessary. The accident happened while he was fitting a truck under a car.

DEATH OF MRS. MONTGOMERY. Steve Montgomery, a machinist in the roundhouse, has reported for work after a short lay-off occasioned by the sad and untimely death of his wife. Interment took place in Oakland, Stanislaus county, the former home of the deceased.

POINTED PARAGRAPHS. Every man knows that a crank is some other fellow. The man who is willing to help you is usually unable to help himself.

It is a curious psychological fact that a man can be in a dozen different minds. Some men come into the world asking "Why?" but no one is able to answer.

It is easy to have the patience of Job when the bolts are on some other fellow. Employees may not be meddlesome, yet they are always minding somebody else's business.

Avoid abbreviations in writing—otherwise you will get into the habit of breaking your words.

Death struggles are sad, but they are nothing in comparison with the struggles of some people to live.

Police men should be successful speculators; so many servant girls let them in on the ground floor.

Don't snub a man because he looks green. A watermelon has a similar look, but it is usually all right at heart.

When some men talk, others are apt to regret that automatic ear-closers have not yet been placed upon the market.

Time flies—but you can't make the man believe it who is compelled to wait five hours for a train at a country station.

THOS. PEARSON'S ARTICLE. One of the most notable features of the latest number of the Western Outlook is a powerful arraignment of the Rev. James H. Kelley, the colored minister who is on trial for the alleged seduction of Miss Rattle Pym. The writer was Thomas Pearson, the brilliant young colored attorney of this city. He handles the Rev. Kelley and those of his ilk without gloves and makes an eloquent plea for the upholding of the moral standard. Mr. Pearson has turned out other writings of much merit, but this arraignment of Kelley will add much more to his reputation.

H. L. TILLEY. Vito-Magnetic Plates will be placed in the bay cities, has removed to more pleasant and convenient apartments in a brick building on Broadway. He has an enviable national reputation as a practitioner of the drugless methods (no medicine). His desire is to cure the afflicted of uprightness and honesty; refusing those whom he cannot help and positively refusing to cure those who do not believe in the truth of his teachings. CITY TRUSTEES MEET IN THE REV. ROBERT RITCHIE ALAMEDA.

CHARGES AGAINST POLICE OFFICE WILL LEADER IN EPISCOPAL FAITH DIED LAST NIGHT AT HIS HOME OF PNEUMONIA.

ALAMEDA, Nov. 18.—The City Trustees met in regular session last night. The ordinance regulating the speed of automobiles was discussed but no action was taken in the matter.

In regard to the charges filed against Sergeant Klump of the Police Department, they board referred the matter to the Police Committee. A thorough investigation will be made and the charges will be reported upon at the next meeting of the board.

WILL ATTEMPT TO ABOLISH OFFICE OF CITY JUSTICE

ALAMEDA, Nov. 18.—The City Justice matter was discussed at considerable length by the Board of Trustees last night, and steps will be taken to abolish the office in this city. The communication filed by City Justice-elect R. B. Trappan to the Trustees explaining the present situation in regard to the office, was read and the discussion opened.

The Trustees instructed City Attorney Simpson to draw up a bill exempting Alameda from the provisions of the new law. Mr. Simpson will take the bill to Sacramento and attempt to secure its passage.

WILL NOT DUMP GARBAGE ON WEBSTER STREET

ALAMEDA, Nov. 18.—There will be no more garbage dumped on the Webster street road. The City Trustees, at their meeting last night, decided that all local garbage should be deposited along the Bay Farm Island road, and nothing in the way of garbage shall be placed on the Webster street road.

BOARD OF EDUCATION WILL MEET TONIGHT

ALAMEDA, Nov. 18.—The Board of Education will meet tonight, at which time the principal matter that will be acted upon by the members will be the considering of the report of the classification committee on the appointment of a new principal for the Longfellow school.

The committee selected Fred Moore, formerly of Fresno county, and he entered upon his duties about a week ago. His appointment, of course, was subject to the approval of the school directors, but it is believed that the committee had a thorough understanding with all of the members before it made its selection, and that its actions will unquestionably be endorsed.

WORTHY MATRON NAMES OFFICERS.

ALAMEDA, November 18.—Mrs. Webster, Worthy Matron-elect of Carthage Chapter, Order of the Eastern Star, has appointed the following officers, to serve during the year: Electa, Mrs. John Heider; Martha, Miss Lowrie; Ruth, Mrs. Ames; Ada, Miss Josephine Lorber; Esther, Mrs. George S. Thompson; Varner, Mrs. Charlotte S. Nault; Sentinel, John Stohmann; Organist, Miss McFarland. The Chapter is yet to be appointed. The public installation of officers of the Chapter will take place next month.

CAKE SALE AT CONGREGATIONAL CHURCH.

ALAMEDA, November 18.—The ladies of the Congregational Church will hold a cake sale in the church parlors, corner of Chestnut Street and Central Avenue, on Saturday, November 22d, at 2 p. m. Home-made candy, mince meat, coffee, pies and doughnuts for sale. Every lady will want to sample the "Scripture" cake and secure the receipt. Thanksgiving mince meat a specialty. Ice cream will be served.

HALCYON PARLOR WILL HAVE LARGE TIME.

ALAMEDA, November 18.—Tonight Halcyon Parlor No. 145, Native Sons of the Golden West, will hold a meeting to nominate officers for the coming term. It will be the occasion of the official visit of the Worthy Grand Vice-President, Bro. McNeble of Stockton. Some thing new in the line of refreshments will be served and a large attendance is expected.

ADELPHIANS HEAR MUSICAL PROGRAM.

ALAMEDA, November 18.—The music section of the Adelphean Club met this morning, upon which occasion E. D. Crandall gave a "Talk on Singing." He had arranged a program of songs which were rendered by his pupils, Miss Florence Ryder, Miss Mary Pauline Grant, Miss Eugenia Eubank and Miss Minnie Smith.

NOTES OF INTEREST FROM CITY OF ALAMEDA.

ALAMEDA, November 18.—R. A. Clark of 1001 Morton Street, who is cashier for Mrs. Phoebe Hearst, is expected home Wednesday from Mexico, where he went several weeks ago on business connected with the Hearst estate.

Mrs. Logan, wife of Dr. H. A. Logan of Astoria, Or., accompanied by her son, are here on a visit to Mrs. Logan's father, Lorenz Logan, of Pacific Avenue and Union Street.

Martin Flound of Astoria, Oregon, is who has been very ill for several weeks.

After an illness of three weeks with pneumonia, the Rev. Robert Ritchie, rector of St. Paul's Episcopal Church, and long a leader in the activities of the Episcopal faith, passed away a few minutes after midnight last night at his home, 622 Mariposa avenue.

Encouraging reports had come from the sick man's bedside the last few days, but his condition became worse last night, and the physicians said that death must soon come. Unconsciousness then came suddenly upon him, followed by a gradual sinking and then the end came, with the family gathered about the bedside.

The Rev. Ritchie contracted the disease that resulted in his death while on a hunting trip in Oregon, where he was caught in a rainstorm.

Pneumonia set in, which was further complicated by cerebral meningitis. Being of a naturally robust constitution, the clergyman gave little care to himself until he was forced to take to his bed.

The Rev. Robert Ritchie was born on February 14, 1851, in Chicago. His parents were Southern people, his father being a physician, and before the War of the Rebellion were slave owners in Kentucky. The war cost them their fortune and not long after Robert's birth they settled in Beloit, Wisconsin. The family remained there until 1874. He was educated in Beloit College.

Having determined to enter the ministry, the young man became a student in the General Theological Seminary of the Episcopal Church in New York City.

He studied there three years, graduating with the class of 1878. His first charge was in Baraboo, Wis., where, in 1878, he married Miss Hannah Thomas. After a year's pastorate in Baraboo, he accepted a call to Christ Episcopal Church, in Quincy, Ill., concluding a two years' pastorate by accepting a call to St. Paul's Episcopal Church in Peoria, Ill., where he filled the pulpit for nine years.

In 1889 the Rev. Mr. Ritchie came to California, having been called to St. Mark's Episcopal Church at Red Bluff. He occupied that pulpit for two years, until offered the rectorship of St. Paul's Episcopal Church in Oakland, which he has filled since his acceptance in 1891.

The family consist of the clergyman's wife, Mrs. Hannah Thomas Ritchie, and five children—Robert Wells, Thomas Newcomb, Margaret, Helene and Mary Lyle Ritchie. There are two sisters, one of whom, Sarah Ritchie, is mother superior in a convent in Madrid, and the other, Mrs. Anna Newcomb, is a resident of Quincy, Ill.

The funeral of Rev. Ritchie will be held Thursday afternoon at 2 o'clock from St. Paul's Church. The services will be conducted by Bishop William Ward Nichols, assisted by Rev. James Hulme.

The vestrymen of St. Paul's Church will be the pall-bearers.

dividual members of this large committee and many others, and then by a sub-committee of citizens representing the people of the five Supervisory districts, was submitted May 19, to the Board of Supervisors for their adoption. The Board gave it a cordial reception, and promptly referred it to the Committee of the Whole for consideration. A prominent member of the Board became indignant about that time, and the scheme was postponed to the delay of the consideration of the ordinance.

Meanwhile the people of the county were becoming more and more urgent in their demands for a voice on this question, by the numerous public meetings which were held (more than fifty in all), the local option clubs which were organized, and the much agitation from the people throughout the county.

The Board was repeatedly prompted concerning the pending ordinance, and eventually gave much consideration as suggested certain minor amendments which were made from time to time. When the ordinance became so absorbing, it was felt that the fitting thing to do was to await its conclusion before bringing further pressure upon the Supervisors. However, shortly before election, the liquor association, known as the Knights of the Royal Arch, sent their attorney before the Board, urging an immediate action or rejection concerning the Ordinance. There was not a full meeting that day, and the matter was deferred for two weeks. It was then referred to the committee on the whole, and the attorneys on both sides were heard at length, and it was formally referred to the Board for its consideration. Last Monday the opinion was read in the affirmative, and the ordinance promptly adopted by a majority vote.

The people of the county are now congratulating themselves that their representatives in county legislation recognize the American right of the people to be heard and the doctrine of majority rule, and also expressing their appreciation of the Rev. J. M. Alexander, superintendent of the Alameda County Anti-Saloon League, for his wisdom and energy so well and freely spent in this achievement.

We have, in our State League Headquarters, the ordinances of the counties throughout California, and we regard this as the strongest Precinct Option Ordinance within the State.

Superintendent State Anti-Saloon League. The Executive Committee is as follows: Rev. Ernest E. Baker, D. D., Oakland, president; Rev. J. N. Baird, D. D., San Francisco, vice-president; Mr. W. S. Jones, Oakland, secretary; California Bank, Oakland, treasurer; Mr. E. P. Flint, Oakland, auditor; R. S. Gray, Esq., San Francisco, attorney; Rev. F. D. Boyard, D. D., San Francisco, Rev. E. R. Dille, D. D., Oakland; Rev. H. J. Knodell, D. D., Oakland; Rev. J. W. Webb, Fresno; Hon. T. C. McChesney, College Park; Mrs. D. J. Spencer, San Francisco; Dr. C. W. Brownson of Alameda; Messrs. Joseph H. Lawrence of Oakland and Thomas B. Russell of Hayward, together with the officers of the County League, namely, Rev. J. M. Alexander, superintendent; Rev. O. E. Hotte, president; Rev. E. P. Bennett, vice president; and H. H. Gribben of West Oakland, secretary and treasurer, met and added to their number the remaining members of the committee; Edward A. Ellsworth of Niles; Dr. W. K. Sanborn of West Oakland; C. M. Tuck of Hayward; and A. Jones of Alameda. There had long and earnest sessions, and prosecuted the work committed to them with commendable sagacity and strength.

Securing legal counsel from the firms of Fox & Gray of San Francisco and Nye & Kinsell of Oakland, it was learned that the existing liquor ordinance was of very doubtful validity because of the amendment made by the last Legislature to Section 2366 of the Political Code, restricting the power of Supervisors, which amendment has been construed and determined by the Supreme Court in the case of exparte Henry Pfirrmann (124 Cal. 112, Sept. 11, 1900), and that, therefore, we must undertake the greater task of drafting an ordinance entirely new, and asking the Board of Supervisors to adopt it.

The draft was secured at the hands of these able attorneys, approved by the in-

AMUSEMENTS

The Weston & Herber's big vaudeville show at the Macdonough Theatre last night was a big success. Every act is clever and up-to-date. It is a first-class show for a small price. The performance will be repeated tonight and tomorrow.

THE BAND. Rivel, the "white leader" of Ellery's Royal Italian Band, has an ear so sensitive to harmony that the least external sound that clashes with the music of his band gives him an acute attack of "nerves." One day when his band of "Aequiva delle Pouti" in Italy was giving a splendid concert in the public square of the city, some priests began celebrating some special mass in the church near by. The sound of the bells in the tower. They clamored out while Rivel was in the midst of one of his most delicate passages. The leader, in a fit of passion, immediately flung down his baton and stopped the music. The listening populace, far more interested in the concert than the mass besieged, the church forthwith and threatened the priests with bodily harm if they didn't stop the bells and pacify the Maestro. The priests accepted the situation, with philosophy ceased ringing the bells and the music went on. After that it was distinctly understood that Rivel and his band must have first consideration under all circumstances. Now it seems that the little White Maestro has lost none of his sensitiveness since he came to America, for the other day in Omaha he asked with perfect seriousness, if the big new Postoffice clock there would not be stopped during the concert of the band. Finding that an impossibility in our practical country he so timed his soliloquy that the incessant striking of the hours of 9 and 10 o'clock of an evening would not break in upon the playing of a delicate minuet. Mr. Ellery begged the audience to wait one evening for five minutes for the commencement of a big selection until the Postoffice clock had stopped striking 10. At the Macdonough Theatre.

"FLORIDORA." Next Thursday morning at 3 o'clock the box office for the Macdonough Theatre will open for the sale of seats for "Floridora." Judging by inquiries, this will be the largest first day's sale in Oakland this season.

CHOLERA IS EPIDEMIC. JERUSALEM, Nov. 18.—The cholera epidemic is spreading rapidly. The population of Gaza and Lydda have been decimated, and the authorities are taking flight. At Gaza there have been fifty-seven deaths in three days. The disease is raging in neighboring villages. No complete returns of the mortality are available. The people in the stricken districts have a sad plight and relief is needed everywhere.

AGED PORTER DEAD IN BED. TINGLEY'S SON ESCAPES.

JOHN ROUNDQUIST PASSES AWAY WHILE SLEEPING AT HIS HOME. CLAIM MADE THAT DARK PLANS ARE MADE AGAINST POINT LOMA.

John Roundquist, a Swedish porter, 60 years of age, was found dead in his room at the Pullman House, at Seventh and Pine streets, early this morning. There were no marks of violence on the remains, and it is supposed that death was due to heart failure.

The deceased was apparently in his usual health and spirits yesterday and last evening. He partook of a hearty dinner last evening and retired to his room about 10 o'clock. This morning the landlady went to his room and, receiving no response to her knocks, opened the door with her pass key. She was horrified to find Roundquist's dead body upon the floor. The deceased had evidently died and fallen before he could reach the bed.

The landlady at once notified the coroner's office and the remains were conveyed to the Morgue, where an inquest will be held.

DISLOCATES SHOULDER WHILE RUNNING FOR BOAT. George Gibson, residing at 1429 Taylor avenue, Alameda, while hurrying to catch the last boat on the San Francisco side of the bay last night, tripped and fell, dislocating his shoulder.

NEW DEAL FOR GARBAGE.

STEEL CREMATORY WILL SOON BE ERECTED IN THIS CITY.

The opposition of Councilman

to the City Council last evening decided the vexed question of the disposal of garbage and passed to print in ordinance granting a franchise to the Pacific Odorous Incinerating Company to erect a Dixon Steel Crematory. The ordinance, which, after twenty years, the crematory shall become the property of the city. Emil Nussbaum was attorney for the successful applicant.

As usual, Dornin had, at the eleventh hour, a long typewritten speech to deliver and he proceeded to deliver it when Bishop, seconded by Boyen, moved that the ordinance be read a second time and passed to print. Among other things he read this paragraph:

"When the Chairman, for the first time, invited remarks by others than members of the committee, I waited until it seemed apparent that all who wished to avail themselves of the opportunity had had their say, before attempting to point out the bad features, as they appeared to me, of the ordinance which seemed to be meeting with the most favor. I was not, however, permitted to complete my argument, which was intended to show that, to my mind, there was only one of the plans which should be considered at all. The others, and particularly the one which seemed to be receiving the most favor, were especially vicious."

A little further on the member from the Seventh Ward declared that he had, at a former meeting, been "choked off."

"What do you mean by that?" asked Schaffer.

"I would like to know who choked him," said Boyer.

"I would like to know in what manner he was choked," said Wilson.

"Well, I felt a choking sensation," said Dornin, meekly, and vouchsafed no further explanation of his remarks. He particularly objected to the term "waste matter," as applied to street sweepings

and Courtney moved that the words be stricken out.

Attorney Nussbaum, representing the company, said that the word "optional" appeared in the ordinance.

"If the city is producing waste matter," said he, "it is optional with the city whether the waste matter shall be removed by the company. Waste matter, as here defined, does not apply to the street sweepings produced by the city of Oakland, anyway. It has reference only to private property. For instance, in section 6, it applies to private houses, or residences; in section 7, it applies to business houses. No sound lawyer, let alone an insurance agent, could construe it any other way."

"We are not here to pinch the people. We want to gather garbage and to incinerate it. We agree to dispose also of waste matter and ashes, but that is optional with the holder, according to the terms of the ordinance."

"If we strike out street sweepings," said Wilson, "then the people who collect garbage need not touch the sweepings unless so disposed. This measure is a fair one, and in the name of God, let's let it alone. We can never get anything that will be satisfactory to all the races of human kind."

"Regarding Mr. Dornin, he was wrong when he said he was choked off. He read a speech which was a yard and six inches long."

"I beg your pardon," said Dornin.

"And when he choked through," said Wilson, "he was choked so much," said Dornin in an apologetic tone, "that I reduced my thoughts to writing."

Councillor said that the discussion of any measure did no harm. He said that Judge Nussbaum was willing to have the word "waste matter" stricken out and he was not passing for not doing so. He declared that the ordinance was a fair one, although it might not be perfect, it should be passed.

Judge Nussbaum said the street sweepings referred particularly to Eleventh Street, where commission houses sweep refuse into the streets.

"City Attorney Johnson was asked for an opinion and said he could find no objection to the ordinance, after reading it over carefully. He said it provided for no charge against the city for street sweepings."

Councilman Wallace said he had also studied the measure thoroughly and thought it a good one as it stood.

"I am ready to vote for the measure as it now stands," said Fitzgerald, "or I am ready to vote for any reasonable amendment, but I want to see some action taken tonight."

"City Attorney Johnson then suggested that the words 'or municipal corporation' be added to the petition producing the same," and declared that that would cover all the objections, in that it would make it optional with "the person or municipal corporation" producing waste matter, whether it should be removed.

A motion to amend by adding the words "or municipal corporation" was carried. Wilson voting an emphatic "no." and the ordinance was passed to print by unanimous vote.

RELIANCE CLUB EXPECTS A LARGE CROWD.

ACME CLUB PLANS FOR TWO OF THE LARGEST BOXING EVENTS OF SEASON—BASEBALL, BOWLING AND RACING.

The Reliance Athletic Club has a rare program for its boxing night, which will be held in the club gymnasium this evening. The main event will be the much-talked-of meeting between Toby Irwin, the prize of Telegraph Hill, and Billy Gardner, the light-weight. This contest promises to be one of the best ever pulled off in this city. Each man is trained to the hour and there can be no excuses offered by either man to the effect that he was not well prepared. White Gardner was a ten-to-six favorite Saturday, Irwin's friends put their money on in chunks yesterday, and late in the afternoon even money was the order.

The main preliminary will be supplied by Frank George and Jimmie Quinn. This promises to be a great battle. George is a glutton for punishment and has a very dangerous swing with either, which means curtains when his lands. Quinn is a very clever shifty man. He has a good Eastern record and wants to get a chance at the biggest game on the coast. He proposes to put George away in big time, but he will doubtless realize that he has been to work if he wins the decision.

Clever, Dixie Kid, the colored boxer, who has been seen several times in this city, will open the show with a clever boxer just out of the amateur ranks named Fred Williams. This go will be short and sweet, as it is for six rounds only. Eddie Smith will referee the main event. Frank Erbe will judge the preliminaries. Billy Jordan, the veteran announcer, will act as master of ceremonies and George Harting will hold the watch. The first contest will be called promptly at 8:30.

Manager Lavigne is making large preparations for the battle.

LOCALS ADVANCE IN PENNANT RACE

MIKE FISHER SIGNS MANY PLAYERS FOR HIS NEW TEAM.

By taking three out of the four baseball games in the series with San Francisco, the Locals have materially increased their lead in the pennant race.

It was just the opposite with Los Angeles for they found Sacramento a hard bunch to beat and they went back a few in the percentage column.

The following table shows how the teams stand up to date:

| | Won | Lost | Per Ct. |
|---------------|-----|------|---------|
| Oakland | 89 | 67 | .568 |
| Los Angeles | 84 | 76 | .528 |
| Sacramento | 81 | 89 | .476 |
| San Francisco | 82 | 92 | .469 |

Mike Fisher has already commenced to reach out for players to make up his team for the coming season. Yesterday he signed Robert English to hold down the first station next year. It is English's present position and he ranks with the best of them.

Fisher has secured Charlie Graham to act as captain and catcher and also Walter Hogan to be change catcher. Pearl Ansey was signed some time ago to hold down second cushion.

GREAT FIGHTS FOR THE ACME CLUB

"ROUGH HOUSE" BURNS WILL GIVE HARRY FOLEY A HARD RUN.

The coming battle between Charley Burns and Harry Foley of this city, which takes place before the Acme Club, Oakland, on the 28th inst., is attracting considerable attention in fight circles. Burns arrived today and will go to Blanken's to do his hardest work. He is a very fast man, and if he lives up to his reputation as a "rough-house" will furnish a great card for the sports, says the Post. He beat "Dutch" Thurston twice, and in Chicago a few weeks ago knocked out "Buck" Montgomery, after a battle that was of the most desperate character.

The men slugged and roughed, pounded and whacked from going to going.

Starting at each other with the first bell, they battled savagely for a moment. Then Montgomery sank down, a smash on the floor by a right flush on the chin. He was up at the call of three, and Burns rushed him. Five seconds later Burns was lying on the canvas, but the tough Cincinnati bounded up, renewed the fight, and shook Buck with a crusher in the throat. Burns had a slight shade on the round. In the second, Buck forced the fighting and fairly rained both mittens on the lovely face before him.

In the third Montgomery also had the shade, meeting Burns with fearful jolts to the wind and crossing the left to the visage. Few men but Burns could have stood up to such a beating.

Buck fought himself out, and Charley went after him in the fourth. He uppercut Montgomery with great effect; he piled both hands savagely, and drove Buck back, though his own knees wobbled. There was a furious wrestle in every clinch, and each man threw the other a couple of times. Buck rushed the enemy in the fifth and took the lead. Both administered much pepper. Suddenly Burns drove a straight right to the body and down went Buck full length and motionless. It looked a clean finish, and everybody grabbed his hat to go home.

The nine Montgomery rose, amid frantic cheers, and set to with both hands. It was Burns' decision on the knockdown when the sixth was due, and Buck rallied for a last effort. He made good; he caught Burns coming in with a smash on the jaw, and Charley reeled. Montgomery tore after him, laughing as he came. Both went to the floor, and both staggered as they rose. Buck sent one across and Burns, all out, fell into a clinch.

As he came he shot that right to the stomach once more, and over went Montgomery, helpless and defeated.

The fate of the Montgomery fight at the Acme Club has been fixed for December 9. This will be a great battle.

GOOD RACING ON A HEAVY TRACK

SOME CLEVER EVENTS AT THE INGLESIDE TRACK ACROSS THE BAY.

Four post favorites won yesterday at Ingleside. The attendance was large and betting very brisk.

Jim Gore II took the lead in the opening event and was never headed, winning easily; Montoya seconded and St. Phillipina third. Time 1:13 1-2.

Loyal S. played down from five to three to one, hand ridden by L. Jackson. She won by a head from Nugget. St. Rica who displayed some early speed was third. Time 1:16 1-2.

With a track just to her suit, Nellie Forrest had no trouble in winning the third race at a mile from Golden Gate. The prize money was \$100.

The Pride who set his own pace and won as he pleased by a length and a half from Gibraltar who was half a length in front of Edinborough. Time 1:12 1-2.

Pounded down from 2 to 1, to even money, Grifter rewarded the talent's confidence by coming home as he pleased in the fifth race. Loyal was first, Maxine two lengths away beat Louvelson, who was a bad third. Time 1:31 1-4.

Green B. Morris' Durazzo off in the lead in the last event of the day retained his position to the wire, being closely pressed by Honiton at the finish.

Honiton, who had some bad luck at the start, beat Pointon three lengths for the place. Time 1:09 1-4.

BOWLING GAMES ON THE LOCAL ALLEYS

SOME INTERESTING CONTESTS SCHEDULED TO TAKE PLACE THIRTEENTH STREET.

This evening the fifth series of "Association Games" will take place on the Thirteenth Street Bowling Alleys between the Star Club of San Francisco and the Eagle Club of Oakland.

The Eagle Club defeated the El Dorado Club by 284 pins and established a new record for Oakland Teams in their last series of games rolled.

Eagle Club:—

| | Game 1 | 2 | 3 | Total |
|----------------|--------|-----|-----|-------|
| N. J. Borquest | 173 | 150 | 178 | 501 |

| P. Johnson | 160 | 212 | 155 | 527 |

Total 2,583 pins. The Eagle Club has just established a new record in Los Angeles by bowling

THE TERMINAL COMPANY GIVEN A FRANCHISE.

NEW RAILROAD COMPANY GETS FRANCHISE BY UNANIMOUS CONSENT OF THE CITY COUNCIL.

The City Council last evening unanimously passed the ordinance

granting a franchise to the San Francisco Terminal Railway and Ferry Company along Third street, and referred to the Ordinance and Judiciary Committee the ordinance granting to the San Francisco, Oakland and San Jose Railway Company, a franchise along Yerba Buena avenue, from the boundary line of Emeryville to a point in the San Francisco Bay, where the road proposes to build a competing ferry line.

The first matter acted upon was the ordinance of the San Francisco, Oakland and San Jose Company.

Attorney Engle, representing the company, stated that an application for the franchise had been filed on October 6, and was set for hearing. He declared that the application had been published in THE TRIBUNE the required length of time and that the company was anxious to secure the franchise as soon as possible.

"Are there any protests on file?" asked President Schaffer.

ing 237. In ten pins in competition. The previous record was 237. A perfect score is 300.

Local bowlers will, no doubt, be greatly interested in the brilliant bowling of some of the Eastern teams.

The following exceptionally high totals were scored by the Columbia Club of New York in two games:

| | | |
|----------|-----|-----|
| Morton | 176 | 213 |
| Sauer | 237 | 207 |
| Bogardus | 264 | 258 |
| Schaefer | 277 | 246 |
| Reid | 189 | 186 |

Total, 1113 1107.

A party of ladies and gentlemen of the Bankers' Club will bowl on the private alleys this evening.

MUSICAL ATTRACTIONS FOR OAKLAND.

There is probably no city on the Pacific Coast that has more students and lovers of music than Oakland and its surrounding towns. Teachers, colleges, seminaries, etc., thrive and the music stores all seem prosperous, yet for some unaccountable reason concerts have not, as a rule, been successful here. Perhaps it has been on account of the facilities taxed to their utmost.

As an instance, Superintendent McClymonds called attention to the rapid growth of that portion of the city east of Broadway and north of Twenty-sixth street, and stated that it was his opinion that additional school facilities should be allowed for this portion of the city. He roughly estimated that for the present needs and the necessary land at the Grant School building would cost in the neighborhood of \$60,000.

The members of the board thought favorably of Superintendent McClymonds' recommendation and the secretary was directed to transmit a communication to the City Council and Bond Committee, re-affirming the present estimate of the board heretofore asked for and further asking for additional money for the purposes of improving the grammar and primary grades. He was also instructed to embrace in the communication a request for that amount necessary to add ten rooms to the Grant School and the purchase of a lot about one hundred by one hundred feet upon which to build the rooms. The entire amount asked is to be finally fixed by the Committee on School Houses and Sites.

The following routine work was transacted by the board:

The requisitions of the various principals, on recommendation of the Committee on Grammar and Supplies, were granted by ayes 1.

On recommendation of the Committee on School Houses and Sites the heating and ventilating apparatus of the Piedmont and Sweet Schools was accepted by ayes 2.

Director Gray, of the Evening School Committee, submitted a report on the Drawing Class of the Evening School, showing that there were over eighty pupils enrolled in the classes. Director Gray recommended that the drawing teacher be employed five nights in the week instead of three, and that the salary be divided into two sections, the salary of the teacher to be \$10 per month, the same as

"There are no protests," replied City Clerk Church.

The ordinance, which had been introduced by Wixson, was then read and referred to the Ordinance and Judiciary Committee. The only change in the plans originally outlined is that the tracks shall run beneath those of the Southern Pacific at the crossing near the bay.

The ordinance granting to the San Francisco Terminal Railway and Ferry Company a franchise along Third street was finally passed without opposition or discussion.

After the meeting President Barnett stated that the road would run overhead at all railroad crossing, except Third and Webster streets, where an interlocking system would be maintained at the expense of the new company.

• TELEPHONE FRANCHISE.

The ordinance granting to the Independent Telephone Company permission to lay wires, as applied for by W. A. Beasley, was also finally passed by unanimous vote, there being no discussion on the subject.

SCHOOL ROOMS OVERTAXED.

RAPID INCREASE IN POPULATION FINDS THE BUILDINGS INADEQUATE.

So rapidly is Oakland increasing in population that Superintendent of Schools McClymonds has found the present public school buildings to be

overtaxed and at a meeting of the Board of Education last night he recommended that a demand be made up on the Bond Committee for \$60,000. In making the recommendation Superintendent McClymonds stated that the city is being so rapidly populated with new comers that the classes in the schools have been overcrowded and the facilities taxed to their utmost.

As an instance, Superintendent McClymonds called attention to the rapid growth of that portion of the city east of Broadway and north of Twenty-sixth street, and stated that it was his opinion that additional school facilities should be allowed for this portion of the city. He roughly estimated that for the present needs and the necessary land at the Grant School building would cost in the neighborhood of \$60,000.

LITTLE CHILD DIES VERY SUDDENLY

The infant daughter of Mr. and Mrs. William Booker was found dead in bed by her mother this morning. Pneumonia is supposed to have been the cause of death, but as no physician has seen the little one, Coroner Melhmann will hold an inquest.

The child was only three months old. Last night she appeared to be slightly ill, but her indisposition was not considered serious, and the parents did not send for a doctor. This morning at 5 o'clock the mother arose and, going to the little one, found her lifeless body. A physician was hurriedly summoned, but when he arrived the child had been dead.

The infant's grandmother, Mrs. C. Wilson, notified the Morgue officials of the death and an inquest will be held at the home of the Bookers at 1713 Pacific Street in West Oakland.
